

# CHALLENGE COURSE MANAGER

This is Challenge Course Manager (CCM) – a course that will help you take on the role of a challenge course manager in your organisation.

The CCM course helps potential CCMs navigate the many challenges in operating a Challenge Ropes Course (CRC). It helps participants critically look at their organisation's practices and documentation so that they have the right tools and support to manage their centres. Beyond crafting SOPs, we also aim to inculcate a good understanding of standards to help guide CCMs in their jobs.

Topics covered in this **3-Day course** will include :

- How to critically read Standard documents?
- Using Challenge by Choice appropriately.
- Spheres of Influence.
- What happens when an incident occurs?

Participants who are interested in completing the **CCM Certification** will be required to meet the following prerequisites and sit for a written assessment :

- 500hrs of documented work experience including working directly with groups, programme coordination, administration and supervision.

At the end of the workshop, learners will be able to :

- Plan for the daily operations of the CRC;
- Determine and maintain the training standards for staff at the CRC; and
- Implement an emergency plan at the CRC.

This course is suitable for advanced CRC practitioners who have experience managing a CRC or related work eg. SOP development, Risk Management planning.
